FRESH TO YOUR DOOR

Choose your model

Designed for food and beverage delivery, our standard models offer you a cost-effective shipping option. Ask our experts to help you choose the appropriate box size and insulator. Custom-brand your box with your company's logo and color scheme.

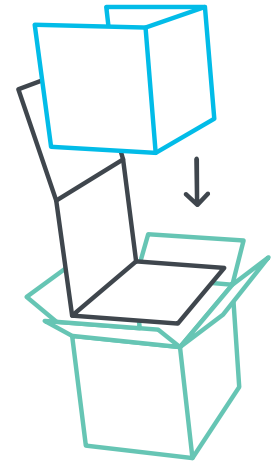

Model No.	L"	W"	H"
1000	10	10	10
1450	11	11	12
1870	13	12	12
2145	15	11	13
2300	16	12	12
2730	19	12	12
4600	18	16	16

Efficient design

Our ThermaFresh® insulation technology consists of two C-shape paperboard liners with a honeycomb structure.

The box and insulator are shipped flat to optimize transport and storage, and are easy to assemble.

The liner is designed to enhance the box's stacking strength and speed up the filling process.

Choose your level of performance

Level 1 insulator: Ideal for same-day, overnight next-day and mild weather.

Level 2 insulator: Ideal for next-day, overnight or two-day delivery, and more extreme hot or cold weather.

With **northbox™**, you can keep a consistent packaging look and maintain freshness in any transit or environmental conditions.

Level 1 insulator

Level 2 insulator

Key advantages

EFFECTIVE

Laboratory-tested under ISTA 7E standard

COMPETITIVE

Competitively priced insulated shipping solution

GREEN

Recyclable & made from recycled materials
FSC® certified

ATTRACTIVE

Neat & distinctive

Go with a pro

Since Cascades manufactures both the insulating box and liner, we are in the best position to give you expert guidance and recommend suitable packaging for your shipping needs. We will advise you on size options to optimize DIM weight and the amount of ice pack to use according to box size, insulation level and outdoor temperature. Plus, we have all the necessary thermal testing equipment in-house to ensure product performance.

About us

Founded in 1964, Cascades produces, converts and markets packaging and tissue products that are composed mainly of recycled fibers. With over 50 years of experience in recycling and ongoing R&D, Cascades provides innovative environmental packaging solutions. Since 2010, we have been producing eco-friendly insulated shipping boxes.
